

What does the Bible say about how to reform civil government?

How can the Christian community influence governmental policy?

Can the church once again take up its role as salt and light?

Can biblical application check the corruption of our civil institutions?

When will the pulpits once again address issues such as war, property, and taxation?

Purpose of MARS: To encourage Christians to think biblically, to view all experience in life through the scriptures, rather than viewing all of the scriptures through experience in life.

At MARS, you can hear live straightforward biblical presentations on such topics as

Taxation

Property

Law

Money

Voting

Role of the Civil Magistrate

War

... and many more societal issues on which the scriptures have spoken.
